Torx Plus Socket Set 19 Pcs

Overview

The YT-05197 Torx Plus socket set is essential equipment for every mechanic, designed to work with modern, non-standard screws. It guarantees precision and reliability, enhancing work efficiency. The set enables effective disassembly and assembly of non-standard fasteners, offers a larger contact surface for a more secure grip, and ensures safe and efficient work where standard sockets fail. Ideal for applications requiring precision and greater clamping force, it achieves higher torque and stability during operation and reduces the risk of damaging screws. Wide application in modern vehicles, mechanics, and electronics. Made from durable chrome-vanadium steel CrV 50BV30. Supplied in a practical case with latches for easy storage and transport. Compatible with vehicles from brands such as Tesla, Nissan, Honda, and Ford.

Key Technical Specifications

Material	CrV 50BV30
Drive Size	1/4" (6.3 mm), 3/8" (9.5 mm), 1/2" (12.7 mm)
Socket Type	Torx Plus (external EP)
Number of Pieces	19

Key Points

- 19-piece Torx Plus (external EP) socket set for professional use
- Specialized for modern, non-standard Inverted Torx Plus screws
- Larger contact surface ensures a more secure grip and higher torque
- Made from durable chrome-vanadium steel CrV 50BV30, resistant to wear
- Drive sizes: 1/4" (6.3 mm), 3/8" (9.5 mm), 1/2" (12.7 mm)
- 1/4" drive sockets: EP4, EP5, EP6, EP7, EP8
- 3/8" drive sockets: EP10, EP11, EP12, EP14, EP16
- 1/2" drive sockets: EP18, EP20, EP22, EP24, EP26, EP28, EP30, EP32

-
- Includes 5-point 1/2" drive socket EP8.8 – dedicated for removing battery covers (e.g. Tesla)
 - EP20: for cylinder head screws on Nissan Altima and Rogue; EP22: for engine mounts on Honda Civic; EP24: for cargo bed screws on Ford vehicles
 - Reduces the risk of damaging screws during operations
 - Supplied in a practical latching case for easy storage and transport
