

Yato | Code YT-55584 | Sku 1055584

Hydraulic Shop Press 20T

Overview

The YT-55584 hydraulic press is a robust tool delivering 20 tons of pressure, designed for efficient service and production tasks. It increases productivity and precision, making it perfect for any professional workshop. Suitable for a wide range of applications including straightening, pressing, extrusion, assembly, and disassembly. Features a foot pedal for comfortable and safe hands-free operation, and a stable welded construction ensuring long-term reliability. Ideal for professional automotive workshops, tool shops, and maintenance departments.

Key Technical Specifications

Weight	88 kg
Material	steel sheet
Application	automotive services, production plants
Piston Stroke	150 mm
Working Range	0–925 mm
Working Width	500 mm
Pressure Force	20 t
Surface Finish	painted (lacquered)
Dimensions (L × W × H)	715 × 550 × 1670 mm

Key Points

- 20-ton pressure force for a wide range of demanding tasks
- Working range: 0–925 mm; working width: 500 mm; piston stroke: 150 mm
- Foot pedal for comfortable and safe hands-free operation
- Stable welded construction for long-term reliability
- Versatile applications: straightening, pressing, extrusion, assembly, and disassembly
- Ideal for professional automotive workshops, tool shops, and maintenance departments

-
- Painted steel sheet construction; dimensions: 715 × 550 × 1670 mm; weight: 88 kg

Warnings

- Read the instructions carefully before using the press.
- Do not exceed the rated press pressure.
- The press must be placed on a firm, level, and stable surface.
- Do not adjust the safety valve.
