Universal Stand for Miter Saws & Thickness Planers

Overview

Discover a new level of comfort and precision in your work with the YT-82179 universal stand. Its durable construction and smart solutions ensure that your tools are always stable and secure. The stand fits most tools thanks to adjustable brackets, and its sturdy steel construction provides resistance to mechanical damage and corrosion. Ergonomic working conditions are achieved through height adjustment to meet individual user requirements. Easy tool attachment is ensured by a hook system, while 4 folding legs facilitate transport and storage.
