Hot Staples for Plastic Welder – 800 pcs

Overview

The YT-824490 staple kit is a comprehensive solution for plastic welders, providing a wide range of repair applications. The set contains 800 staples in four diverse shapes (large wave, small wave, letter M, letter V) and two thicknesses (0.6 mm and 0.8 mm). Compatible with YATO plastic welders YT-824480 and YT-824485. Staples are made from durable manganese steel, ensuring strong, long-lasting weld reinforcement. Precise shapes facilitate work in hard-to-reach areas, and the staples offer high resistance to loads and deformations. Suitable for professionals and DIY enthusiasts.

Key Technical Specifications

Material	Manganese steel
Set Contents	Small wave (0.6 mm × 100, 0.8 mm × 100), Large wave (0.6 mm × 100, 0.8 mm × 100), Letter M (0.6 mm × 100, 0.8 mm × 100), Letter V (0.6 mm × 100, 0.8 mm × 100)
Staple Shapes	Small wave, Large wave, Letter M, Letter V
Compatible With	YT-824480, YT-824485
Staple Thickness	0.6 mm, 0.8 mm

Key Points

- 800 staples included in the set
- Four shapes: small wave, large wave, letter M, letter V
- Two thicknesses: 0.6 mm and 0.8 mm
- Made from durable manganese steel
- Compatible with YATO plastic welders YT-824480 and YT-824485
- High resistance to loads and deformations
- Precise shapes for work in hard-to-reach areas
- Suitable for repairing a wide range of plastic components
