

Yato | Code YT-82976 | Sku 1082976

Stand for Angle Grinder 230mm

Overview

Increase cutting precision and safety with the YT-82976 stand. Its robust construction ensures stability even during intensive work with an angle grinder. The stable base made of cast iron provides secure support during cutting. Features an integrated strong quick-clamp vise for fast and safe material mounting, heavy-duty load-bearing profiles ensuring durability and resistance to loads, and a double return spring enabling comfortable work even with heavy grinders. Precise knobs allow setting the horizontal cutting angle for accuracy in every cut. Compatible with grinding discs with diameters of 180 mm and 230 mm, with a maximum cutting depth of 60 mm.

Key Technical Specifications

Vise type	Quick-clamp
Base material	Cast iron
Disc diameter	180, 230 mm
Return system	Double spring
Operating angle	45°
Max. cutting depth	60 mm

Key Points

- Stable cast iron base providing secure support during cutting
- Integrated quick-clamp vise for fast and safe material mounting
- Heavy-duty load-bearing profiles for durability and resistance to loads
- Double return spring for comfortable operation with heavy grinders
- Precise knobs for setting the horizontal cutting angle
- Compatible with grinding discs of 180 mm and 230 mm diameter
- Maximum cutting depth of 60 mm
