Universal Grinding Disc M14 125mm P80

Overview

Universal grinding wheel suitable for use with an angle grinder. Used for removing rust and paint coatings from metal and leveling concrete surfaces before tiling. Also useful when chamfering at a 45° angle. Designed for use in both industry and home workshops. Compatible with steel, ceramics, concrete, and stoneware surfaces.

Key Technical Specifications

Grit	P80
Abrasive	Silicon carbide
Diameter	125 mm
Application	Concrete, steel, stone, ceramics, stoneware, grinding
Thread size	M14
Body material	Nylon
Max. rotational speed	17000 min ¹
Mounting hole diameter	22.2 mm
Max. disc linear velocity	80 m/s

Key Points

- Universal grinding disc compatible with angle grinders
- Effectively removes rust and paint coatings from metal surfaces
- Suitable for leveling concrete surfaces before tiling
- Ideal for chamfering at a 45° angle
- Abrasive: silicon carbide for efficient material removal
- Nylon body construction for durability
- Max. rotational speed: 17,000 min¹ | Max. linear velocity: 80 m/s
- Compatible with steel, ceramics, concrete, stone, and stoneware

-
- Suitable for both industrial and home workshop use

Warnings

- Always use personal protective equipment (PPE) when operating this product.
