Abrasive Disc with Hook Fastener 8 Holes P150 150mm 50pcs

Overview

8-hole, 150mm diameter abrasive discs with grit 150. Material: aluminium oxide. Backing: hook fastener (Velcro). Pack of 50 pieces. Bond: epoxy resin. Coating: semi-open. Designed for sanding paint, varnish, wood and metal surfaces. Compatible with oscillating and random orbital sanders YT-82207 and YT-82206.

Key Technical Specifications

|                   |                                |
|-------------------|--------------------------------|
| Bond              | Epoxy resin                    |
| Grit              | P150                           |
| Holes             | Yes                            |
| Shape             | Round (disc)                   |
| Backing           | Paper, Velcro (hook fastener)  |
| Coating           | Semi-open                      |
| Diameter          | 150 mm                         |
| Application       | Steel, wood, paints, varnishes |
| Compatible with   | YT-82206, YT-82207             |
| Number of holes   | 8                              |
| Abrasive material | Aluminium oxide                |
| Backing thickness | C                              |

Key Points

- 150mm diameter abrasive sanding discs with 8 dust extraction holes
- Grit: P150 – suitable for medium sanding applications
- Abrasive material: aluminium oxide for durability and consistent performance
- Hook fastener (Velcro) backing for quick and easy disc changes
- Semi-open coating minimises clogging during use

- 
- Epoxy resin bond for strong abrasive grain adhesion
  - Compatible with oscillating and random orbital sanders YT-82206 and YT-82207
  - Suitable for sanding steel, wood, paints and varnishes
  - Pack of 50 discs

## Warnings

- Always use personal protective equipment (PPE) when operating power tools and abrasives.
