Garden Pump with Filter 850W

Overview

Garden pump for the efficient supply of irrigation systems in gardens and plumbing systems. Suitable for use on allotments, campsites, cottages and outbuildings. Designed for clean water, fed from wells, rainwater tanks and swimming pools. The pre-filter is easily removed for cleaning. Rubber feet provide stability during operation and reduce noise and vibration. The pump housing and switch are waterproof. A convenient handle makes it easy to carry. A pressure gauge allows pressure monitoring.

Key Technical Specifications

Power	850 W
Weight	8.9 kg
Voltage	230 V AC
Frequency	50 Hz
Manometer	Yes
Max. head	38 m
Application	Pumping clean water for garden applications, e.g. irrigation
Cable length	1.2 m
Max. capacity	3600 l/h
Acoustic power	72.01 ± 3.0 dB(A)
LED indicators	No
Casing material	PVC
Protection grade	IPX4
Acoustic pressure	60.89 ± 3.0 dB(A)
Max. suction height	8 m
Max. pumping pressure	3.8 bar
Water outlet diameter	G1
Max. water temperature	35°C

Electric insulation class I

Key Points

- Motor power: 850 W, voltage: 230 V AC, frequency: 50 Hz
- Maximum flow capacity: 3600 l/h
- Maximum pressure: 3.8 bar, maximum head: 38 m
- Maximum suction height: 8 m
- Water outlet connection: G1 (1 inch)
- Maximum water temperature: 35°C
- Protection rating: IPX4 – waterproof housing and switch
- Acoustic pressure: 60.89 ± 3.0 dB(A); acoustic power: 72.01 ± 3.0 dB(A)
- PVC casing, rubber feet for stability and vibration reduction
- Built-in pressure gauge (manometer) for pressure monitoring
- Power cable length: 1.2 m
- Easily removable pre-filter for cleaning
- Ergonomic handle for convenient carrying
- Weight: 8.9 kg
