

Yato | Code YT-86660 | Sku 1086660

Grass and Leaf Collector

Overview

Discover a new dimension of garden cleaning with the YT-86660 collector. Lightweight and efficient, it allows for quick removal of leaves and grass without noise or emissions. Features four rotating nylon brushes with height adjustment for accuracy on various surfaces. The 53 cm working width speeds up tidying, while the spacious 100-litre bag minimises emptying frequency. Comfortable upright operation is supported by an ergonomic handle with a soft PP plastic cover and two wheels for easy manoeuvring. Side supports allow stable storage of the device.

Key Technical Specifications

Wheels	Yes
Drive Type	Manual
Application	Collection of mowing residues, scarifying debris, leaves, and other organic waste from lawns, paving stones, and asphalt
Body Material	PE (polyethylene)
Working Width	530 mm
Basket Capacity	100 l
Handle Material	PP (polypropylene, soft-coated)
Number of Wheels	2
Number of Brushes	4
Producer Code (EAN)	5906083114397
Working Part Material	Nylon

Key Points

- Working width of 53 cm for fast, wide-area coverage
- 100-litre collection bag minimises emptying frequency
- Four rotating nylon brushes with height adjustment for various surfaces

-
- Manual drive – no noise, no emissions
 - Ergonomic handle with soft PP plastic cover for comfortable upright operation
 - Two wheels for easy manoeuvring
 - Side supports for stable storage
 - Suitable for lawns, paving stones, and asphalt
 - Collects mowing residues, scarifying debris, leaves, and other organic waste
 - Main body made of PE (polyethylene)
