

Yato | Code YT-86760 | Sku 1086760

Garden Roller, Width 50 cm, Capacity 65 Liters

Overview

Ensure a perfect lawn with the garden roller YT-86760. It is indispensable for laying a new lawn and maintaining an existing one. The roller features a built-in adjustable mud scraper to keep the roller clean and strengthen the structure. A comfortable handle with a soft foam cover ensures user comfort during operation. The drum can be filled with water through a 30 mm opening for increased weight and work efficiency. Durable steel construction with a lacquered surface finish ensures long-term use. Ideal for leveling and compacting soil in the garden.

Key Technical Specifications

Capacity	65 l
Material	Steel
Application	Leveling the ground, compacting the ground
Finish	Lacquered
Weight (empty)	13 kg
Working diameter	400 mm
Working part width	500 mm

Key Points

- Effective soil compaction before sowing grass
- Precise seed pressing after sowing to prevent displacement
- Built-in adjustable mud scraper keeps the roller clean and reinforces structure
- Comfortable handle with soft foam cover for user comfort
- Can be filled with water via 30 mm opening for increased weight and efficiency
- Working width: 50 cm
- Roller diameter: 40 cm
- Capacity: 65 liters

-
- Durable lacquered steel construction for long-term use
