Flexible Ratchet Combination Wrench 22 mm

Overview

High-quality combination wrench equipped with a ratchet and swivel joint. Designed for automotive workshops, service shops, and do-it-yourselfers. Made of high-quality chrome vanadium steel, ensuring durability and long service life. Chrome-plated, polished, and induction-hardened surface. Precision ratchet with 72 teeth and a 12-point ring end. Practical swivel joint allows the wrench to work even in hard-to-reach places.

Key Technical Specifications

Size	22 mm
Ratchet	Yes
Hardness	42–49 HRC
Material	CrV (Chrome Vanadium Steel)
Application	Workshop
Head Coating	Polished
Swivel Joint	Yes
Ring End Type	12-point (dodecagonal)
Open End Width	45.2 mm
Overall Length	290 mm
Ring End Width	42.7 mm
Surface Finish	Chrome plated, polished, induction hardened
Number of Teeth	72
Rotation Switch	No
Manufacturer Code	5906083916885
Open End Thickness	9.8 mm
Ring End Thickness	13.5 mm

Key Points

- Made from high-quality chrome vanadium (CrV) steel for durability and long service life
- Chrome-plated, polished, and induction-hardened surface finish
- Precision 72-tooth ratchet mechanism for fine angular movement
- 12-point ring end for secure fastener engagement
- Swivel joint enables use in confined and hard-to-reach spaces
- Hardness rating: 42–49 HRC
- Size: 22 mm | Overall length: 290 mm
