Circlip Pliers, External Straight 225 mm

Overview

YT-1988 are professional external straight circlip (Seger) pliers designed for maximum comfort and efficiency, ideal for tasks requiring precision and durability. Features precision-ground tips made of high-quality 50CrV steel for safe and effective installation and removal of circlips. The polished and nickel-plated surface increases corrosion resistance. Ergonomic handles are covered with soft PVC grips for a secure hold. Optimal length of 225 mm facilitates access and maneuvering in hard-to-reach places. Wide working range from 35 to 100 mm suits various applications. Ideal for professional use in automotive and precision mechanics.

Key Technical Specifications

Material	50CrV steel
Standard	DIN 5254
Application	Automotive
Head Finish	Polished, nickel-plated
Pliers Type	External Straight
Total Length	225 mm
Working Range	35–100 mm
Handle Material	PVC

Key Points

- Precision-ground tips made of high-quality 50CrV steel for safe and effective circlip installation and removal
- Polished and nickel-plated surface for increased corrosion resistance
- Ergonomic handles with soft PVC grips for a secure and comfortable hold
- Total length of 225 mm for easy access in hard-to-reach places
- Wide working range: 35–100 mm for various applications

-
- Suitable for professional use in automotive and precision mechanics
 - Compliant with DIN 5254 standard
