Circlip Pliers, Internal Bent 225 mm

Overview

Professional-grade internal bent circlip pliers designed for efficient installation and removal of securing rings. Features precision tips made from 50CrV steel for exceptional durability, with a polished and nickel-plated surface for increased corrosion resistance. Soft PVC handles provide a comfortable and secure grip. The curved shape facilitates work with internal rings in hard-to-reach places. 225 mm length ensures optimal reach, with a wide working range of 35–100 mm for versatile applications.

Key Technical Specifications

|                 |                         |
|-----------------|-------------------------|
| DIN             | 5254                    |
| Type            | Internal Bent           |
| Length          | 225 mm                  |
| Material        | 50CrV                   |
| Application     | Automotive              |
| Head Finish     | Polished, Nickel-Plated |
| Working Range   | 35–100 mm               |
| Handle Material | PVC                     |

Key Points

- Designed for precise installation and removal of internal securing rings
- Tips made from high-grade 50CrV steel for exceptional durability
- Polished and nickel-plated surface for increased corrosion resistance
- Comfortable and secure grip provided by soft PVC handles
- Curved shape facilitates work in hard-to-reach places
- 225 mm length for optimal reach and ease of use
- Wide working range from 35 to 100 mm for versatile applications
- Compliant with DIN 5254 standard
