Pipe Wrench, PVC Handle, 350 mm

Overview

Pipe wrench 350 mm offset type with body made of ductile cast iron. Finds a wide range of applications in construction, industry, service and plumbing work. Strong and notched jaws are made of carbon steel and are characterized by high strength. Easy adjustment of the setting nut allows quick and efficient adjustment of the wrench.

Key Technical Specifications

Size	14"
Type	Bent head
Length	350 mm
Application	Hydraulic
Body material	Cast iron, PVC
Jaws hardness	55–60 HRC
Jaws material	Carbon steel
Finish	Blackened, phosphated
Max. pipe diameter	1.5" (38 mm)
Technology process	Wrought

Key Points

- Offset (bent head) pipe wrench, 350 mm length
- Body made of ductile cast iron with blackened and phosphated surface finish
- Strong, notched carbon steel jaws with hardness of 55–60 HRC
- Easy-to-adjust setting nut for quick and efficient wrench adjustment
- Maximum pipe diameter: 1.5" (38 mm)
- PVC handle for comfortable grip
- Suitable for construction, industry, service and plumbing applications

Warnings

- Always use personal protective equipment when working with this tool.
