PVC Pipe Cutter

Overview

YATO brand PVC pipe cutter featuring a rubberized handle and a simple, reliable cast aluminum body for comfortable and trouble-free use. Designed for cutting PVC and other plastic pipes (PP, PE, PU) in plumbing service and construction applications. The blade is made of 8Cr13 stainless steel hardened to 54 HRC, and the ratchet mechanism makes cutting easier and faster. Maximum cutting diameter is 64 mm.

Key Technical Specifications

Lever	Yes
Hardness	54 HRC
Application	PVC pipes, PP pipes, PU pipes, PE pipes, PEX-Al-PEX pipes
Blade finish	Toughened
Body material	Cast aluminum alloy
Quick release	Yes
Blade material	Stainless steel 8Cr13
Handle material	Rubber
Max. cutting diameter	64 mm

Key Points

- Cuts PVC, PP, PE, PU, and PEX-Al-PEX plastic pipes up to 64 mm diameter
- Blade made of 8Cr13 stainless steel, hardened to 54 HRC for durability
- Ratchet mechanism for easier and faster cutting
- Cast aluminum body — lightweight, simple, and reliable
- Rubberized handle for a comfortable, secure grip
- Equipped with a lever and quick-release mechanism

Warnings

- Use of hand tools may be dangerous! Always use personal protective equipment at work.
- Use only proper, undamaged tools.
- Select the type and size of tool according to the intended application.
- Do not overload tools.
- Keep tools away from children.
- Use tools with proper care.
- When using the tool in winter, to avoid burst pipes, warm the pipe in lukewarm water before cutting.
- After use, it is recommended to oil the cutter mechanism.
