Masonry Drill Bit 16x460 mm SDS Plus 3-Point

Overview

Masonry drill bit designed for drilling into concrete and silicate materials. Features an SDS-Plus shank for secure tool holder compatibility, a 3-point tip geometry for efficient penetration, and a double spiral for effective debris removal. Made from 40Cr steel with a DK-30 carbide blade and refined surface finish.

Key Technical Specifications

Pieces	10
Diameter	16 mm
Material	40Cr
Tip type	3-point tip
Application	Concrete, silicates
Spiral type	Double
Blade material	DK-30
Overall length	460 mm
Finish	Refined
Tool holder type	SDS-Plus
Working part length	360 mm
Working part material	S4

Key Points

- SDS-Plus shank for quick and secure chuck compatibility
- 3-point tip for fast, precise penetration into hard materials
- Double spiral design for efficient debris and dust evacuation
- DK-30 carbide blade material for extended durability
- 40Cr steel body with refined surface finish
- Suitable for concrete and silicate materials
