INOX Cutting Disc

Overview

Stainless steel cutting disc designed for effective processing of stainless and mild steel. The disc features a resin bond reinforced with fiberglass. It is characterized by high cutting efficiency with low disc wear. Compatible with standard angle grinders.

Key Technical Specifications

Diameter	125 mm
Disc Type	Flat
Application	Stainless steel, cutting
Max. Rotational Speed	12,200 min ⁻¹
Mounting Hole Diameter	22 mm
Cutting Segment Thickness	1.2 mm
Max. Disc Linear Velocity	80 m/s

Key Points

- Suitable for cutting stainless steel and mild steel
- Fiberglass-reinforced resin bond for durability
- High cutting efficiency with minimal disc wear
- Compatible with standard angle grinders
- Maximum rotational speed: 12,200 min⁻¹
- Maximum disc linear velocity: 80 m/s
- Disc diameter: 125 mm
- Cutting segment thickness: 1.2 mm
- Mounting hole diameter: 22 mm
