Stainless Steel Cable Ties 4.6×125 mm, 100 pcs

Overview

Steel ties designed for fixing and fastening wires and tubes. Used in automotive, industrial, and installation works. Made of stainless steel 201. Easy assembly and convenient adjustment. Durable, effective locking mechanism in the form of a self-locking mechanism with a steel ball in the center. Smooth surface and rounded edges ensure safety during installation and do not damage braided cables.

Key Technical Specifications

Size	4.6×125 mm
Color	Chrome
Material	Stainless Steel 201
Manufacturer Code	5906083063671

Key Points

- Made of stainless steel 201 for corrosion resistance and durability
- Self-locking mechanism with a steel ball in the center for secure fastening
- Smooth surface and rounded edges prevent damage to cables and wires during installation
- Easy assembly and convenient adjustment
- Suitable for automotive, industrial, and installation applications
- Pack of 100 ties, size 4.6×125 mm
