Cable Ties 450x9.0mm Black – 50 pcs

Overview

Black cable ties made of PA66 polyamide, sized 450x9.0 mm. The use of PA66 polyamide gives these ties enhanced tear resistance, very good mechanical properties, and increased UV resistance. One side features evenly spaced serrations; feeding the free end through the locking head tightens the tie to the required size. Once locked, the tie cannot be released without damage. The close serration pitch allows precise adjustment of the loop to the circumference of the item being fastened. Suitable for fastening and bundling cables, wires, hoses, tubes, as well as securing objects such as hubcaps, licence plates, and more. Supplied in a pack of 50.

Key Technical Specifications

Size	9.0x450 mm
Colour	Black
Material	Nylon PA66 UL 94 V-2
UV resistant	Yes
Melting point	215–225 °C
Oil resistant	Yes
Grease resistant	Yes
Solvent resistant	Yes
Dielectric strength	300 kV/mm
Working temperature	-20 ~ +80 °C
Salt-water resistant	Yes
Max. tensile strength	80 kg
Max. cable bundle diameter	108 mm

Key Points

- Size: 450 mm length × 9.0 mm width
- Material: PA66 polyamide, flammability class UL-94 V-2
- Maximum tensile (ripping) force: 80 kg
- Maximum cable bundle diameter: 108 mm
- UV resistant, solvent resistant, oil resistant, grease resistant, salt-water resistant
- Dielectric strength: 300 kV/mm
- Working temperature: -20 °C to +80 °C
- Melting point: 215–225 °C
- Colour: black
- Pack quantity: 50 pieces
