Flap Wheel with Shaft

Overview

Discover the flap wheel sander YT-83363 - a versatile tool suitable for both home workshop and professional applications. Ideal for sanding various materials including metals, wood, and some plastics. Durablely embedded abrasive cloth flaps ensure long-lasting performance. Easy to use with drills and straight grinders. P80 grit provides optimal surface finish. Durable construction ensures stability and safety during work. Ideal for finishing work and material removal.

Key Technical Specifications

Bond	Synthetic Resin
Grit	P80
Size	60x30x6 mm
Shape	Roller
Backing	Canvas (Cloth)
Application	Metal
Shank Diameter	6 mm
Material	Aluminum Oxide
External Diameter	60 mm
Abrasive Flap Height	30 mm
Max. Rotational Speed	15000 min ¹

Key Points

- P80 grit aluminum oxide abrasive for optimal surface finish
- Compatible with drills and straight grinders
- Flap wheel dimensions: 60x30 mm, shank diameter: 6 mm
- Maximum rotational speed: 15,000 rpm
- Durable cloth backing with synthetic resin bond

-
- Suitable for sanding metals, wood, and some plastics
 - Ideal for finishing work and material removal

Warnings

- Always use personal protective equipment when operating this tool.
