C-Clamp 150 mm

Overview

Specialist C-type steel clamp made of 0.45% carbon steel. Clamp height 150 mm, depth 74 mm. Maximum load 3200 kg. Surface finish: phosphated black. Designed for clamping materials during construction and assembly works. Especially suitable for welding and drilling operations. Strong 150 mm jaw for heavy assembly work.

Key Technical Specifications

Size	6"
Type	C
Depth	74 mm
Material	cast iron
Jaw range	150 mm
Thread finish	phosphated, hardened
Clamping force	3200 kg
Screw material	#45 carbon steel
Finish	phosphated
Technology process	wrought

Key Points

- C-type clamp with 150 mm jaw range
- Maximum clamping force: 3200 kg
- Depth: 74 mm
- Body made of cast iron with phosphated black surface finish
- Screw made of #45 carbon steel with phosphated and hardened thread
- Suitable for welding, drilling, and heavy assembly work
- Wrought technology process

Warnings

- Always use personal protective equipment when working with this tool.
