

Yato | Code YT-7004 | Sku 107004

Hammer Tacker 6-10 mm

Overview

The professional hammer tacker is designed for quick driving of staples with lengths of 6 to 10 mm. Its specific design allows fast operation reminiscent of hammering nails. The hammer tacker works great when installing large insulation foil sheets, roof membranes, preliminary fastening of roofing felt, and similar tasks — particularly work requiring speed rather than great precision. It can be operated with one hand, which is important for safety when working at height. Compatible staples: YT-7022 (6 x 1.2 x 10.6 mm), YT-7023 (8 x 1.2 x 10.6 mm), YT-7025 (12 x 1.2 x 10.6 mm), YT-7026 (14 x 1.2 x 10.6 mm).

Key Technical Specifications

Type	Hammer tacker
Application	Upholstery, carpentry, finishing works
Staple type	Rectangular staples
Staple width	10.6 mm
Body material	Steel
Staple length	6–10 mm
Handle material	PVC
Staple thickness	1.2 mm
Staple dimensions	6–10 x 1.2 x 10.6 mm

Key Points

- Accepts rectangular staples with lengths of 6 to 10 mm
- Fast hammer-action operation — no trigger required
- One-handed operation for improved safety when working at height
- Ideal for insulation foil, roof membranes, roofing felt, upholstery, and carpentry
- Steel body with PVC handle for durability and grip
- Compatible with YATO staples: YT-7022, YT-7023, YT-7025, YT-7026

Warnings

- Use of hand tools may be dangerous — always wear appropriate personal protective equipment.
- Use only proper, undamaged tools.
- Select the correct tool type and size for the intended application.
- Do not overload tools.
- Keep tools out of reach of children.
- Use tools with proper care.
