Chopping Axe 1400g Hickory Handle

Overview

The YT-8005 carpenter's axe combines tradition with modernity, offering unparalleled precision and durability designed for the most demanding tasks. Features a precisely ground carbon steel blade for efficient cutting and a hickory wood handle renowned for its flexibility and hardness. Exceptional resistance to breakage and damage ensures long tool life. The blade-handle connection is secured with double wedging (wooden and steel) for maximum stability. Optimal weight of 1400 g provides perfect balance and work comfort, while the ergonomic 710 mm handle allows for precise maneuvering.

Key Technical Specifications

DIN	7294
Weight	1400 g
Axe type	Carpenter's
Handle length	710 mm
Blade material	Carbon steel
Head treatment	Hardened, ground, blackened
Handle material	Hickory wood
Manufacturing process	Cold forged
Protective steel ring	Yes

Key Points
