## Description

The fischer GK WH is a self-tapping nylon plasterboard fixing for gypsum plasterboard. Its short fixing length requires limited space behind the board, while the included setting tool enables fast installation.

## Key Features

- Self-tapping nylon plasterboard fixing
- Suitable for lightweight objects
- Includes angle hooks and setting tool
- Short fixing length for limited cavity space
- Can be removed using the cross-drive recess
- Suitable for single- and double-planked gypsum plasterboard
- No preliminary drilling required for board thicknesses up to 15 mm
- Not suitable for gypsum fibreboard or tiled plasterboard

## Applications

- Mounting pictures
- Mounting lighting
- Fitting accessories
- Electrical installations
- Lightweight objects on gypsum plasterboard

## What's Included

- 5 x fischer GK plasterboard fixings
- 5 x angle hooks, 4.2 x 40 mm
- 1 x setting tool
