Technical Specifications

Brand	Fischer
Model	FU 6 x 35 K NV
Mfr part no.	045461
SKU	33765
Type	Universal nylon wall plug
Anchor Length	35 mm
Drill Diameter	6 mm
Minimum Panel Thickness	12.5 mm
Wood And Chipboard Screw Diameter	3.0–3.5 mm
Material	Nylon
Quantity	20 pcs
Packaging	Blister card
Gtin	8590369454610

Description

The fischer FU is a universal nylon plug designed for use in concrete, vertically perforated brick and hollow block. Its geometry provides expansion anchoring in solid materials and form-locking anchoring in perforated or cavity materials. Anti-rotation lugs help prevent the plug from turning during installation, while the collar prevents it from sliding into the drill hole. The plug is suitable for wood and chipboard screws.

Key Features

- Universal design for use in a wide range of building materials
- Expansion anchoring in solid building materials
- Form-locking anchoring in perforated and cavity materials
- Anti-rotation lugs help prevent the plug from turning

- Collar prevents the plug from slipping into the drill hole
