Weight	69 g
Quantity	4 pcs
Packaging	Blister

Description

The fischer FU 10x60 V K is supplied in a four-piece blister pack. The fixing expands in solid building materials and forms a knot-like anchorage in hollow materials and behind plasterboard. Anti-rotation wings help prevent the plug from turning during installation, while the collar prevents it from slipping into the drill hole.

Key Features

- Suitable for solid, semi-solid and hollow building materials
- Supplied with screw
- Universal nylon plug design
- Expands in solid materials
- Forms a knot-like fixing in hollow materials and behind plasterboard
- Anti-rotation wings prevent rotation in the drill hole
