fischer Expansion Plug S 6

Short Description

Rimless fischer S 6 nylon expansion plug with two-way expansion, supplied in a 100-piece folding box.

Technical Specifications

Brand	Fischer
Model	S 6
Mfr part no.	50106
SKU	83326
Type	Nylon expansion plug
Drill Diameter	6 mm
Anchor Length	30 mm
Minimum Drill Hole Depth	40 mm
Recommended Screw Diameter	5 mm wood screw diameter
Expansion Type	Two-way expansion
Material	High-quality nylon
Recommended Load Concrete	0.40 kN for concrete $\geq$ C20/25
Recommended Load Solid Brick	0.28 kN for solid brick $\geq$ Mz 12
Recommended Load Solid Sand Lime Brick	0.28 kN for solid sand-lime brick $\geq$ KS 12
Quantity	100 pieces
Packaging	Folding box
Gtin Ean	4006209501061

Description

The fischer S 6 is a high-quality nylon expansion plug for pre-positioned and push-through installation in concrete and solid masonry. Its two-way expansion allows the expansion forces to be aligned parallel to the edge of the building material, while the anti-rotation lock helps prevent the plug from turning during installation.

Key Features

- Rimless plug design suitable for pre-positioned and push-through installation
- Anti-rotation lock helps prevent rotation in the drill hole
- Slimline geometry for easy insertion
- Suitable for wood and chipboard screws
- Suitable for concrete and solid masonry applications

Applications

- Lighting
- Letter boxes
- Motion detectors
- Information boards
- Curtain rails
- Electrical installations

What's Included

- 100 x fischer S 6 nylon expansion plugs
- Folding box packaging
