Wheel Nut Impact Socket Set 1/2" 10 pcs

Overview

Set of 10 impact sockets featuring the As-Drive system, designed specifically for use on aluminum rims. Suitable for automotive service centers and tire/vulcanization workshops handling impact and pulse loads. The soft plastic cover protects the rim from paint damage, and the colored finish allows easy size identification. Material: CrMo steel. Sizes included: 15, 17, 19, 21, 22, 23, 24, 7/8", 17 (Mercedes), 21 (Kia, Hyundai). Length: 87 mm. Drive: 1/2".

Key Technical Specifications

Type	Impact
Length	87 mm
Material	CrMo
Drive size	1/2" (12.7 mm)
Application	Aluminum rims, high impact and pulsating loads, automotive service centers and tire repair shops
Socket sizes	15, 17, 19, 21, 22, 23, 24, 7/8", 17 (Mercedes), 21 (Kia, Hyundai) mm
AS-Drive system	Yes
Number of pieces	10

Key Points

- Set of 10 impact sockets with As-Drive system for aluminum rims
- Sizes: 15, 17, 19, 21, 22, 23, 24, 7/8", 17 (Mercedes), 21 (Kia, Hyundai)
- Length: 87 mm | Drive: 1/2" (12.7 mm)
- Made from CrMo steel for high impact and pulsating load resistance
- Soft plastic cover protects aluminum rims from paint damage
- Color-coded finish for quick and easy size identification
- Ideal for automotive service centers and tire/vulcanization workshops

Warnings

- Always use personal protective equipment (PPE) when working with this tool.
