

Yato | Code YT-21840 | Sku 1021840

Pipe Bender 6-10mm

Overview

The YATO YT-21840 is a professional 3-in-1 pipe bender designed for plumbers and installers. It provides precise bends for pipes with diameters of 6–10mm regardless of material. The tool bends pipes up to 180° without crushing them, with embossed angle markings on the body for accuracy. Compatible with soft copper, brass, aluminum, and soft steel pipes. Suitable for use in hydraulics, brake installations, gas/oil systems, and air conditioning/refrigeration systems. Facilitates work in hard-to-reach places.

Key Technical Specifications

Material	Steel
Application	Copper pipes, aluminum pipes, mild steel pipes, brass pipes
Pipe diameter	1/4" (6.3 mm), 5/16" (8 mm), 3/8" (9.5 mm)
Max. operating angle	180°

Key Points

- 3-in-1 design handles pipe diameters of 6mm (1/4"), 8mm (5/16"), and 10mm (3/8")
- Bends pipes up to 180° without crushing or deforming them
- Embossed angle markings on the body for precise bending
- Compatible with soft copper, brass, aluminum, and soft steel pipes
- Suitable for hydraulics, brake installations, gas/oil systems, and air conditioning/refrigeration
- Designed for use in hard-to-reach places
- Made from high-grade steel for durability

Warnings

- Always use personal protective equipment when working.
