fischer Hammerset Anchor EA M8 x 30 N Electro Zinc Plated

Short Description

Zinc-plated steel fischer EA N internal-thread hammerset anchor for multiple fixings in non-structural systems.

Technical Specifications

Brand	Fischer
Model	EA M8 x 30 N zp
Mfr part no.	90160
SKU	815496
Type	Hammerset anchor / drop-in anchor
Nominal Anchor Length	30 mm
Effective Anchorage Depth	30 mm
Spindle Thread	M8 internal thread
Drill Diameter	10 mm
Maximum Bolt Penetration	13 mm
Minimum Bolt Penetration	8 mm
Minimum Member Thickness	100 mm
Recommended Tension Load	2.5 kN
Recommended Installation Torque	8 Nm
Recommended Setting Tool	EA-ST 8
Material	Zinc-plated steel
Suitable Building Materials	Concrete C12/15 and C20/25, non-cracked
Packaging	Folding box, 100 pcs
Gtin	4006209901601

Description

For pre-positioned installation in non-cracked concrete, this anchor is designed for fixing pipelines, cable trays and consoles where approved anchorage is not required. Installation is completed using the EA-ST 8 setting tool, which expands the anchor sleeve against the drill-hole wall.

Key Features

- Simple hammer-set installation
- M8 metric internal thread for standard screws or threaded rods
- Zinc-plated steel construction
- Suitable for multiple fixings in non-structural systems

Applications

- Pipelines
- Cable trays
- Consoles
- Multiple fixings in non-structural systems
- Fixing applications in non-cracked concrete

What's Included

- 100 x fischer EA M8 x 30 N zinc-plated steel hammer-set anchors
- Folding box packaging
