Telescopic Tire Wrench Set

Overview

The YT-08040 telescopic wheel wrench is an essential tool for every car owner, providing peace of mind during roadside emergencies. Made from durable chrome-vanadium (CrV) steel for long-lasting performance and resistance. The telescopic design allows for easy and quick wheel changes in any conditions. Its compact size makes it easy to store in the trunk or glove compartment. Supplied with two universal double-sided sockets covering the most popular lug nut sizes. Packaged in a soft storage case to protect the tool from damage and prevent soiling.
