AIR HOSE REEL 8MM * 20M

Overview

body, .main_layout, .main_layout * { color: #000 !important; } .top_slider_left, .top_slider_right { background-size: cover; background-position: center; background-repeat: no-repeat; } Power and Order in the Workshop YT-24244 pneumatic hose is the key to efficient work with air-powered tools. Its durable housing and flexible hose make it an ideal solution for any workshop. Maximum Performance and Work Order Essential power supply for a wide range of pneumatic tools Automatic reel ensures order, cable protection, and user convenience Flexible hose maintains resistance to high and low temperatures Exceptional stretch resistance Resistance to aggressive chemicals Easy and stable mounting to a workbench or wall thanks to included anchors Universal application in workshops and production facilities Fitted with standard fittings for wide compatibility Automatic reel Easy installation Flexible hose Length 20 m Standard fittings Technical Data: Hose length: 20 m Inner hose diameter: 8 mm Maximum air pressure: 2 bar Hose material: PVC Reel housing material: PP Thread size: G1/4 BSPT Automatic hose retraction: Yes Resistance: to UV radiation, scratches, chemicals Set Contents: Pneumatic hose Automatic reel Mounting anchors (4 pieces)

Key Technical Specifications

Length	20
UV proof	yes
Hose length	m
Thread size	G1/4 BSPT
Set includes	pneumatic hose, automatic retractor, fixing anchors x4
Hose material	PVC
Casing material	PP
Hose auto rewind	yes
Internal diameter	8 mm
Max. air pressure	2 MPa

Scratch resistant	yes
-------------------	-----

Chemical resistance	yes
---------------------	-----

Key Points

- Essential power supply for a wide range of pneumatic tools
- Automatic reel ensures order, cable protection, and user convenience
- Flexible hose maintains resistance to high and low temperatures
- Exceptional stretch resistance
- Resistance to aggressive chemicals
- Easy and stable mounting to a workbench or wall thanks to included anchors
- Universal application in workshops and production facilities
- Fitted with standard fittings for wide compatibility
- Hose length: 20 m
- Inner hose diameter: 8 mm
- Maximum air pressure: 2 bar
- Hose material: PVC
- Reel housing material: PP
- Thread size: G1/4 BSPT
- Automatic hose retraction: Yes
- Resistance: to UV radiation, scratches, chemicals
- Pneumatic hose
- Automatic reel
- Mounting anchors (4 pieces)
