Hexagonal Wrecking Bar 800×22 mm

Overview

Crowbar with hexagonal profile, 800×22 mm, made of #45 carbon steel. Designed for heavy assembly and demolition work in construction, industry, and transportation.

Key Technical Specifications

Length	800 mm
Profile	Hexagonal
Diameter	22 mm
Material	#45 carbon steel
Surface Finish	Surfaced
Working Part Finish	Tempered
Manufacturing Process	Wrought

Key Points

- Hexagonal profile for improved grip and torque
- 800×22 mm dimensions suitable for heavy-duty applications
- Made from #45 carbon steel for durability and strength
- Wrought construction with tempered working end
- Suitable for assembly and demolition in construction, industry, and transportation

Warnings

- Always use personal protective equipment (PPE) when using this tool.
