Measuring Wheel 10,000 m

Overview

Distance measuring wheel with a measuring range of 0.01–10,000 m, featuring an electronic counter and a wheel diameter of 160 mm. Equipped with a telescopic shaft and a body made of damage-resistant ABS plastic. Includes a carrying case. Powered by 2 × 1.5 V AAA batteries. Suitable for measuring distances both indoors and outdoors, including curved paths.

Key Technical Specifications

Foldable	Yes
Material	Aluminum, ABS
Type	Electronic
Telescopic	Yes
Battery Type	2 × 1.5 V AAA
Display Type	Backlit LCD
Power Supply	Battery
Display Range	0.1–9,999.9 m
Handle Length	820–1,040 mm
Wheel Diameter	160 mm
Handle Material	ABS
Measurement Unit	Meters, Feet
Manufacturer Code	5906083048630
Measurement Accuracy	±0.5%
Digital Control Panel	Yes

Key Points

- Measuring range: 0.01–10,000 m
- Electronic counter with backlit LCD display
- Wheel diameter: 160 mm
- Telescopic and foldable handle (820–1,040 mm)
- Body made of damage-resistant ABS plastic
- Suitable for indoor and outdoor use, including curved surfaces
- Powered by 2 × 1.5 V AAA batteries
- Carrying case included
