Flashlight 2-in-1 250lm 18V, Movable Head - Body Only

Overview

A small and very lightweight portable rechargeable flashlight designed for great convenience at work. Powered by 18V platform batteries, it provides full mobility during travel, fieldwork, or in locations with limited mains power access. The movable head allows illumination of the work area at any angle within 180°. Five lighting modes, including red flashing, enable the user to adapt the light type to surrounding conditions, personal needs, and the nature of the task. This is the body-only version — battery and charger are not included.

Key Technical Specifications

Power	2.5W (flashlight), 1.2W (spotlight)
Weight	0.25 kg
Dimensions	165 x 95 x 68 mm
Light Angle	120°
Battery Type	Li-Ion
LED Lifespan	50000 h
Movable Head	Yes
Hook Included	Yes
Hook Quantity	1
Luminous Flux	250lm (flashlight), 100lm (spotlight)
Lighting Modes	5: flashlight, flashlight + spotlight, spotlight, red flashing + flashlight, red flashing
Number of LEDs	1 COB + 10 SMD
Battery Voltage	18 V DC
Built-in Magnet	Yes
Battery Included	No
Charger Included	No

Color Temperature	6000–6500 K
Light Source Type	COB LED, SMD LED
Protection Rating	IP20
Head Rotation Range	180°
Mechanical Strength	IK07
Electrical Insulation Class	III
Color Rendering Index (CRI Ra)	>=80

Key Points

- 2-in-1 design: 1 COB LED flashlight (2.5W, 250lm) and 10 SMD LED spotlight (1.2W, 100lm)
- 5 lighting modes: flashlight, flashlight + spotlight, spotlight, red flashing + flashlight, red flashing
- Movable head rotates 180° for flexible directional lighting
- Compatible with 18V Li-Ion batteries from the YATO 18V platform (battery and charger not included)
- 120° light angle, 6000–6500K color temperature, CRI >80
- Built-in magnet and hook for hands-free mounting in convenient locations
- Mechanical strength IK07, protection rating IP20
- LED lifespan up to 50,000 hours
- Compact and lightweight: 165 x 95 x 68 mm, 0.25 kg

Warnings

- Body only — battery and charger are not included in the set.
- IP20 rating: not suitable for use in wet or outdoor exposed conditions.
- Working time and charging time depend on the capacity of the battery used.
