Height	20 mm
Diameter	60 mm
Material	Plastic

Key Points

- Pre-drilling the hole: Drill a hole with a diameter of 60 mm. Make sure the hole is clean and free of burrs.
- Inserting the grommet: Place the grommet into the prepared hole. The secure fit ensures safe and stable cable routing.
- Work desks: Keep cables from computers, monitors and other electronics organised.
- Shared workplaces: Ideal for offices and coworking spaces where cables need to be kept under control.
- Kitchens: Great for routing cables from kitchen appliances.
- Living rooms: Perfect for organising cables at TV stands and other electronic devices.
- Workshops: Also useful in workshops, where they help maintain order among tools and equipment.
- Inner diameter: 60 mm – an important dimension for easy installation.

- Outer diameter: 70 mm – provides sufficient strength and stability.
- Material and colour: Our grommets are made from durable materials. A popular choice among customers is the matte black finish.
- Easy installation: Quick mounting without complications.
- Aesthetic design: Choose the colour finish that best matches your decor.
- High quality: Durable materials guarantee long service life and reliability.
- Versatile use: Ideal for both home and professional environments.
