Key Points

- **VERSATILITY:** Door wedges are simple and suitable for any type of door. They can be used on all types of flooring – laminate and wooden floors, tiles or carpets.
- **QUALITY:** The wedge material is made from non-toxic, high-quality and robust plastic. The anti-slip finish of the plastic stopper ensures a perfect hold even with the heaviest doors.
- **DESIGN:** The door wedge impresses with its simplicity and effortlessly adapts to any floor in any room. It will become an indispensable helper in your home.
- **EASY APPLICATION:** Simply insert the wedge between the floor and the door. The door will then remain firmly secured even in the strongest draught. No screws, no drilling.
