Yato Hexagonal Impact Socket 3/4" 24 mm

Key Technical Specifications

|                       |                    |
|-----------------------|--------------------|
| Socket Size           | 24 mm              |
| Drive Holder Size     | 3/4" (19.0 mm)     |
| Socket Type           | Hexagonal, short   |
| Type                  | Impact             |
| Length                | 50 mm              |
| Socket Outer Diameter | 40 mm              |
| Material              | CrMo SCM-440 steel |
| Surface Finish        | Phosphated         |
| AS-DRIVE              | Yes                |

Applications

- Impact-rated for use with power tools
- Hexagonal, short profile for standard fasteners

Construction

- Forged from CrMo SCM-440 steel
- Phosphated surface finish for corrosion resistance
- Features AS-DRIVE
