GASOLINE HEDGE TRIMMER 25.4CC 60CM

Overview

Gasoline hedge trimmer designed for precise cutting of branches and shrubs of medium and large thickness. It works perfectly in the care of fruit trees, as well as ornamental trees in gardens, parks, orchards, and forests. Thanks to the solid construction and powerful two-stroke engine, the trimmer provides high efficiency and reliability even during intensive work in demanding conditions. The quiet operation of the engine, the rotating handle, and the anti-vibration system increase user comfort during work. Application: trimming and shaping hedges, cutting branches of trees and shrubs, orchard and forestry work, maintenance of green areas and parks. Main features: powerful two-stroke engine with a capacity of 25.4 cm³ and power of 0.75 kW guarantees efficient work; rated engine speed with cutting system 7000 rpm and maximum speed 8500 rpm ensure high work efficiency; cutting length of 600 mm allows for quick and efficient trimming of plants; optimal cutting speed of 1850 strokes per minute makes cutting effective and precise; comfortable operation thanks to the anti-vibration system and low vibrations at 4.25 m/s² (front handle) and 2.92 m/s² (rear handle); working angle of 180; rotating handle; air cooling system protects the engine from overheating; solid and durable construction translates into long tool life; fuel tank capacity of 0.5 l allows for long work without the need for frequent refueling; noise level 94 dB (pressure) and 111 dB (power) compliant with field work standards; weight of 5.8 kg increases user comfort even for extended periods.

Key Technical Specifications

Brand	Yato
Power	0.75 kW, 1.02 KM
Symbol	YT-84797
Weight	5.8 kg
Cooling	air
Fuel Type	unleaded petrol
Vibrations	4.25 ± 1.5 / 2.92 ± 1.5 m/s ²

Silent motor	yes
Cutting speed	1850 min ¹
Producer code	5906083116865
Rotary handle	yes
Acoustic power	111.0 ± 2.82 dB(A)
Cutting length	600 mm
Operation angle	180
Acoustic pressure	94.0 ± 3.0 dB(A)
Fuel tank capacity	0.5 l
Ignition plug type	L8RTF
Oil and fuel ratio	25:1
Anti-vibration system	yes
Engine (motor) capacity	25.4 cm ³
Max. engine (motor) rotations	8500 min ¹
Engine speed with cutting system	7000 min ¹
Strokes number in engine (motor)	2
Cylinders number in engine (motor)	1
Idling speed engine (motor) rotations	3000 min ¹

Key Points

- trimming and shaping hedges
- cutting branches of trees and shrubs
- orchard and forestry work
- maintenance of green areas and parks
- powerful two-stroke engine with a capacity of 25.4 cm³ and power of 0.75 kW guarantees efficient work
- rated engine speed with cutting system 7000 rpm and maximum speed 8500 rpm ensure high work efficiency
- cutting length of 600 mm allows for quick and efficient trimming of plants
- optimal cutting speed of 1850 strokes per minute makes cutting effective and precise
- comfortable operation thanks to the anti-vibration system and low vibrations at 4.25 m/s² (front handle) and 2.92 m/s² (rear handle)
- working angle of 180
- rotating handle
- air cooling system protects the engine from overheating
- solid and durable construction translates into long tool life
- fuel tank capacity of 0.5 l allows for long work without the need for frequent refueling
- noise level 94 dB (pressure) and 111 dB (power) compliant with field work standards
- weight of 5.8 kg increases user comfort even for extended periods
