GASOLINE BACKPACK BLOWER 52CC

Overview

Maximum cleanliness of green areas. The backpack gasoline blower YT-85192 is a professional tool designed for intensive cleaning of gardens, parks, and large green areas. Its ergonomic design ensures comfort even during prolonged work. Noticeable cleaning effectiveness: a powerful 52 cm³ two-stroke engine with 1.45 kW power ensures reliable operation in difficult conditions. Airflow speed up to 280 km/h and efficiency of 890 m³/min guarantee fast and effective removal of contaminants. The ergonomic backpack design evenly distributes weight, increasing stability and user comfort. A 1.5 L fuel tank capacity allows for longer work without frequent refueling. The reduced vibration level of 4.19 m/s² minimizes fatigue during prolonged use. Ideal for cleaning leaves, branches, and debris on large surfaces: parks, gardens, and urban areas. Keeping driveways, parking lots, and sidewalks clean becomes easier and faster. Possibility of working in places without access to electricity, thanks to gasoline power supply. Low noise level meeting standards for professional tools (98.5 dB(A) pressure). Powerful engine, strong airflow, high efficiency, long working time, low vibrations. Detailed technical data: Engine: two-stroke, single-cylinder, air-cooled. Engine displacement: 52 cm³. Engine power: 1.45 kW (approx. 1.97 HP). Maximum rotational speed: 7500 rpm. Airflow speed: up to 280 km/h. Blowing capacity: 890 m³/min. Additional data and set contents: Fuel tank capacity: 1.5 L. Noise level (pressure/power): 98.5 dB(A) / 108.3 dB(A). Vibration level: 4.194 m/s². Device weight: 9.6 kg. Set contents: blower, nozzle, bag. Spark plug type: L7RTC. Fuel and oil ratio: 25:1. Fuel type: unleaded gasoline E10. Number of cylinders in the engine: 1. Number of strokes in the engine: 2.

Key Technical Specifications

Brand	Yato
Power	1.45 kW, 1.97 HP
Symbol	YT-85192
Weight	9.6 kg
Cooling	air

Fuel Type	unleaded petrol E10
Rotations	7500 min ¹
Vibrations	4.194 ± 1.5 m/s ²
Set includes	blower, nozzle
Blow capacity	890 m ³ /min
Producer code	5906083116889
Acoustic power	108.3 ± 3.0 dB(A)
Engine capacity	52 cm ³
Spark plug type	L7RTC
Acoustic pressure	98.5 ± 3.0 dB(A)
Blowing air speed	280 km/h
Fuel tank capacity	1.5 l
Oil and fuel ratio	25:1
Number of strokes in engine	2
Number of cylinders in engine	1

Key Points

- Powerful 52 cm³ two-stroke engine with 1.45 kW power ensures reliable operation in difficult conditions
- Airflow speed up to 280 km/h and efficiency of 890 m³/min guarantee fast and effective removal of contaminants
- Ergonomic backpack design evenly distributes weight, increasing stability and user comfort
- 1.5 L fuel tank capacity allows for longer work without frequent refueling
- Reduced vibration level of 4.19 m/s² minimizes fatigue during prolonged use
- Ideal for cleaning leaves, branches, and debris on large surfaces: parks, gardens, and urban areas
- Possibility of working in places without access to electricity, thanks to gasoline power supply
- Air-cooled single-cylinder two-stroke engine
- Maximum rotational speed: 7500 rpm
- Noise level (pressure/power): 98.5 dB(A) / 108.3 dB(A)
- Device weight: 9.6 kg
- Set contents: blower, nozzle, bag
- Spark plug type: L7RTC
- Fuel and oil ratio: 25:1
- Fuel type: unleaded gasoline E10
