

Yato | Code YT-87750 | Sku 1087750

PRUNING SAW 350MM

Overview

Convenient and lightweight hand saw with a 350 mm blade length, designed for precise pruning of tree branches. The profiled blade with crosscut teeth enables effective cutting in both directions. It can be used both as a standalone hand saw and as a spare blade for YATO YT-88780 and YT-88781 telescopic saws. Technical parameters: blade length: 350 mm; material: high-quality, durable SK5 steel; blade surface finish: lacquered; induction-hardened teeth: HRC 63-67; protective coating; aluminum handle; weight: 180 g.

Key Technical Specifications

For	YT-88780, YT-88781
Brand	Yato
Symbol	YT-87750
Blade finish	varnished
Blade length	350 mm
Producer code	5906083118814
Blade material	SK5
Handle Material	aluminum
Working part hardness	63-67 HRC
Induction hardened teeth	yes

Key Points

- Blade length: 350 mm
- Blade material: high-quality, durable SK5 steel
- Blade surface finish: lacquered
- Induction-hardened teeth: HRC 63-67
- Protective coating

-
- Aluminum handle
 - Weight: 180 g
 - Crosscut teeth for cutting in both directions
 - Compatible as spare blade for YATO YT-88780 and YT-88781 telescopic saws

Warnings

- Warning! Always use personal safety equipment at work.
