

Vorel | Code 35012 | Sku 1035012

Vorel Lateral Clamp (35012)

Key Technical Specifications

Type	Transverse, double, adjustable
Material	High-quality steel
Max. Lifting Capacity	120 kg
Adjustable Grip Range	90–360 mm
Weight	6.5 kg
Surface Finish	Powder coating
Handle Material	Rubber

Applications

- Moving and laying curbs
- Positioning concrete edges
- Handling other paving materials
- Optimized for two-person operation

Key Features

- Adjustable grip range 90–360 mm
- Rubber grips protect material and improve hold
- Powder coating for corrosion resistance and durability
- Comfortable rubber handles

Benefits

- Precise and safe positioning of concrete elements
- Increases paving and construction efficiency
- Minimizes physical effort for operators
- Ensures stability and control during transport
