FLAT MODULAR TOOL BOX SYSTEM 19V S1

Overview

Universal toolbox with adjustable dividers. It combines the features of a medium-sized tool container with the functionality of an organizer. Two external handles make it easy to carry. The box is equipped with a flexible seal that provides protection against dust and water ingress. The reinforced construction of the lid and body allows for a high load capacity. The box can withstand a pressure of up to 120 kg, enabling the creation of convenient work platforms. Connectors in the lid allow for connection with other elements of the S1 and S12 systems. The construction is reinforced with external ribs. Compatible with S1 and S12 system boxes.

Key Technical Specifications

Grip	yes
Brand	Yato
