SUCTION GUN 500ML

Overview

Versatility and reliability in your workshop The YT-07084 manual suction pump is your reliable tool for precise management of operating fluids. Indispensable in every workshop and garage. Precise management of operating fluids Ideal for precise topping up and suctioning of fluids from tanks Compatible with engine and gearbox oil Indispensable for servicing coolant Enables safe handling of brake fluid Versatile application in various machines and devices 500 ml capacity ensures comfortable and efficient operations Universal application 500 ml capacity Easy to use Precise operation For multiple fluids Product specification Tank capacity: 500 ml Intended use: for operating fluids Functions: topping up and suctioning Types of fluids: engine oil, gearbox oil, coolant, brake fluid Application: external tanks as well as in machines and devices

Key Technical Specifications

Brand	Yato
Symbol	YT-07084
Application	for operating fluids, for adding or sucking oil from external tanks or tanks in machines and devices
Producer code	5906083083297
Tank capacity	500 ml

Key Points

- Ideal for precise topping up and suctioning of fluids from tanks
- Compatible with engine and gearbox oil
- Indispensable for servicing coolant
- Enables safe handling of brake fluid
- Versatile application in various machines and devices
- 500 ml capacity ensures comfortable and efficient operations

-
- Tank capacity: 500 ml
 - Intended use: for operating fluids
 - Functions: topping up and suctioning
 - Types of fluids: engine oil, gearbox oil, coolant, brake fluid
 - Application: external tanks as well as in machines and devices
