

Yato | Code YT-07140 | Sku 1007140

Car Engine Oil Transfer Extractor Pump

Overview

Portable and efficient oil change. The electric oil suction pump YT-07140 is the perfect solution for quick and clean fluid changes in a car, motorcycle, or boat. It is an essential tool for every mechanic and handyman. Efficiency and convenience in one. Versatility: suction of engine, drive, and heating oil. High power of 100 W and 12 V power supply for efficient operation. Portability and easy connection to the vehicle's battery. Fast flow of 2-4 liters per minute shortens work time. Suction capability up to 3 meters makes it easy to reach difficult-to-access tanks. Safety: recommended oil temperature 40-50°C for optimal performance. Complete set: three hoses of different diameters included, ready to use. Remember: the pump is not intended for pumping gasoline and solvents. Quick suction, 12V power supply, 100 W power, hoses included, engine/heating oil. Detailed technical specification: Voltage: 12 V; Power: 100 W; Maximum efficiency: 2-4 l/min; Maximum delivery head: 1 m; Suction height: 3 m; Recommended oil temperature: 40-50 C. Set elements: Oil suction pump; Two suction hoses with a length of 100 cm; Discharge hose with a length of 100 cm; Three flexible hose diameters: 6, 8, 10 mm; Hose clamp; Four quick couplings.

Key Technical Specifications

Brand	Yato
Power	100 W
Symbol	YT-07140
Weight	1.2 kg
Voltage	12 V d.c.
Max. head	1 m
Hose width	6, 8, 10 mm
Set includes	oil pump, suction hose x2, outlet hose, clamp band, quick connector x4
Max. capacity	2-4 l/min

Producer code	5906083097843
Steam pressure	0.3 MPa
Suction height	3 m
Protection grade	IPX0
Electric insulation class	III
Recommended oil temperature	40-50 C

Key Points

- Versatility: suction of engine, drive, and heating oil
- High power of 100 W and 12 V power supply for efficient operation
- Portability and easy connection to the vehicle's battery
- Fast flow of 2-4 liters per minute shortens work time
- Suction capability up to 3 meters makes it easy to reach difficult-to-access tanks
- Recommended oil temperature 40-50°C for optimal performance
- Complete set: three hoses of different diameters included, ready to use
- Voltage: 12 V
- Power: 100 W
- Maximum efficiency: 2-4 l/min
- Maximum delivery head: 1 m
- Suction height: 3 m
- Includes: oil suction pump, two suction hoses (100 cm), discharge hose (100 cm), three hose diameters (6, 8, 10 mm), hose clamp and four quick couplings

Warnings

- The pump is not intended for pumping gasoline and solvents.
