GARDEN PUMP WITH FILTER 850W

Overview

Garden pump for the efficient supply of irrigation systems in gardens and plumbing systems. Used on allotments, campsites, cottages and outbuildings. It is designed for clean water, fed from wells, rainwater tanks and swimming pools. The pre-filter is easily removed for cleaning. Rubber feet provide stability in operation and reduce noise and vibration. The pump housing and switch are waterproof. The convenient handle makes it easy to carry. A pressure gauge allows pressure monitoring. Motor power: 850 W; voltage: 230 V; maximum capacity: 3600 l/h; max pressure 3.8 bar; maximum head: 38 m; maximum suction height: 8 m; degree of protection: IPX4; connections: 1"; maximum water temperature: 35°C; cable length: 1.2 m.

Key Technical Specifications

Brand	Yato
Power	850 W
Symbol	YT-85363
Weight	8.9 kg
Voltage	230 V a.c.
Frequency	50 Hz
Max. head	38 m
Application	for pumping clean water for garden applications, e.g. irrigation
Wire length	1.2 m
Max. capacity	3600 l/h
Producer code	5906083106613
Acoustic power	72.01 ± 3.0 dB(A)
LED indicators	no
Pressure gauge	yes
Casing material	PVC

Protection grade	IPX4
Acoustic pressure	60.89 ± 3.0 dB(A)
Max. pumping pressure	3.8 bar
Max. submersion depth	8 m
Water outlet diameter	G1
Max. water temperature	35 C
Electric insulation class	I

Key Points

- Motor power: 850 W
- Voltage: 230 V
- Maximum capacity: 3600 l/h
- Max pressure 3.8 bar
- Maximum head: 38 m
- Maximum suction height: 8 m
- Degree of protection: IPX4
- Connections: 1"
- Maximum water temperature: 35°C
- Cable length: 1.2 m
- Pressure gauge for pressure monitoring
- Removable pre-filter for easy cleaning
- Rubber feet for stability and reduced noise and vibration
- Waterproof housing and switch

Warnings

- Designed for clean water only
- Maximum water temperature 35°C
