

Yato | Code YT-1974 | Sku 101974

Electrician Scissors

Overview

Scissors for electricians. The blades are intended for cutting thin wires, insulation tapes, heat shrink tubes and similar materials. Made of stainless steel marked 3CR13SS. The working part is hardened to 52-56 HRC. Most of the scissors are covered with a layer of insulating plastic. The handles are additionally covered with TPR inserts. Total length 140 mm. Suitable for auxiliary work performed by electricians. Usage warnings: Warning! Always use personal protective equipment at work.

Key Technical Specifications

Brand	Yato
Length	140 mm
Symbol	YT-1974
Hardness	52-56 HRC
Material	3Cr13 stainless steel
Application	electric
Producer code	5906083919749
Handle Material	nylon, TPR
