Yato | Code YT-4214 | Sku 104214

MASONRY DRILL BIT 12X160 MM SDS PLUS X-TIP

Overview

Classic four-blade drill bit for reinforced concrete with a blade resistant to damage upon contact with rebar. Use for drilling in reinforced concrete, silicate, ceramic brick. The double helix prevents the drill bit from jamming when discharging a large amount of excavated material. The steel of the drill body is resistant to temperature expansion, so the drill does not lock in the chuck.

Key Technical Specifications

Pcs	10
Brand	Yato
Symbol	YT-4214
Diameter	12 mm
Material	40Cr
Blade type	X-tip
Application	concrete, aerated concrete, silicates
Spiral type	double
Producer code	5906083942143
Blade material	YG-11C
Overall length	160 mm
Finish	refined
Toolholder type	SDS-Plus
Working part length	95 mm
Working part material	S4

Key Points

- Material: 40Cr
- Application: concrete, cellular concrete, silicate
- Surface finish: ground
- Working part material: S4
- Toolholder type: SDS-Plus
- Diameter: 12 mm
- Blade material: YG-11C
- Total length: 160 mm
- Working part length: 95 mm
- Number of pieces in set: 10
- Blade type: X-tip
- Spiral type: double
- Four-blade design with rebar-resistant blade
- Double helix prevents jamming during discharge of excavated material
