

Yato | Code YT-71700 | Sku 1071700

MEASURING TAPE FOR OUTER DIAMETER AND CIRCUMFERENCE D 20-300MM

Overview

Steel Measuring Tape for Diameter and Circumference Discover precision with the YT-71700 measuring tape, which allows simultaneous measurement of diameter and circumference. Made of stainless steel, it guarantees reliability and long-lasting use. Precision and Convenience of Measurement Allows simultaneous measurement of diameter and circumference Made of high-quality stainless steel, ensuring durability Wide measurement range for diameter from 20 to 300 mm Large measurement range for circumference from 60 to 950 mm High measurement accuracy of up to 0.1 mm for reliable results Simple and intuitive operation: just wrap around the object being measured and read the measurement result Clear metric and imperial scale for universal application Precise Measurement Stainless Steel Wide Range Measurement of Diameter and Circumference Easy to Use Technical Data: Measurement range for diameter: 20 – 300 mm Measurement range for circumference: 60 – 950 mm Tape material: Stainless steel Measurement accuracy: ± 0.01 mm Scale: Metric and imperial Application: Measurement of diameter and circumference

Key Technical Specifications

Brand	Yato
Symbol	YT-71700
Diameter	20-300 mm
Inch scale	yes
Application	diameter and circumference measurement
Metric scale	yes
Circumference	60-950 mm
Producer code	5906083040115
Tape material	stainless steel

Measurement accuracy	±0.01 mm
----------------------	----------

Key Points

- Allows simultaneous measurement of diameter and circumference
- Made of high-quality stainless steel, ensuring durability
- Wide measurement range for diameter from 20 to 300 mm
- Large measurement range for circumference from 60 to 950 mm
- High measurement accuracy for reliable results
- Simple and intuitive operation: just wrap around the object being measured and read the result
- Clear metric and imperial scale for universal application
- Measurement range for diameter: 20 – 300 mm
- Measurement range for circumference: 60 – 950 mm
- Tape material: Stainless steel
- Measurement accuracy: ±0.01 mm
- Scale: Metric and imperial
