

Yato | Code YT-73270 | Sku 10YT73270

ELECTRONIC SCALE 40KG/5G

Overview

Precise Weighing The YT-73270 electronic scale with an accuracy of 5 g allows for quick and precise weighing of products up to 40 kg. The dual-sided LCD display with LED backlighting ensures readability of results from both the operator's and the customer's side. The device offers practical features: zeroing, taring, weight stabilization, and overload warnings, facilitating quick and accurate transactions. Powered by a 4 Ah lead-acid battery with a charge level indicator, and includes a charger, ensuring readiness for use without constant connection to the mains. Lightweight design makes it easy to transport anywhere. The weighing surface measuring 230 x 330 mm is made of steel, and the body is made of durable ABS with a dust cover. The control panel with 24 PVC buttons in an acrylic housing facilitates operation and quick data entry. Accurate Measurement, Clear Display, Long Operating Time, Durable Construction, Easy Operation. NOTE - Not a measuring instrument within the meaning of the "Law on Measures" act.

Key Technical Specifications

Fold	no
Brand	Yato
Symbol	YT-73270
Weight	2.3 kg
Voltage	220-240 V a.c.
Frequency	50/60 Hz
Functions	calibrating, taring, stabilisation of the weight indication, overload warnings
Scale area	230x330 mm
Battery type	lead-acid
Display type	LCD
LED backlight	yes
Producer code	5906083122507

Battery energy	16 Wh
Battery voltage	4 V d.c.
Nominal current	0.3 A
Battery capacity	4000 mAh
Charger included	yes
Protection grade	IPX0
Max. load capacity	40 kg
Storage temperature	0–50 C
Measurement accuracy	5 g
Low battery indicator	yes
Operating relative humidity Rh	≤90 %
Operating temperature at a site	5–35 C

Key Points

- Measurement accuracy: 5 g, maximum load: 40 kg
- Dual-sided LCD display with LED backlighting for readability from both operator and customer sides
- Functions: zeroing, taring, weight stabilization, overload warnings
- Powered by a 4 Ah, 4 V lead-acid battery (16 Wh) with charge level and low battery indicators; charger included
- Weighing surface 230 x 330 mm made of Steel 410; body made of durable ABS plastic with dust protection cover
- Acrylic control panel with 24 PVC buttons
- Lightweight design (2.3 kg) for easy transport
- Protection class: IPX0

Warnings

- Not a measuring instrument within the meaning of the "Law on Measures" act.
